

Case Docket

This window schedules hearings and determines where they will be heard. See the User Navigation Below. The left panel contains all cases that are NOT DROP or DISMISS status cases. The central panel contains a Docket (cases for a day - and filters for the location). The bottom panel allows a docket to set in the central panel.

ADD TO DOCKET FUNCTION
- ADD case to DOCKET. Highlight case in left panel, push ADD CASE, DIALOG reads CASE NUMBER and allows USER to ADD THE DOCKET DETAILS. Next page show the added case # 22-1251.
NOTE:
VIEW DOCKET. This button was desinged to REFRESH the DOCKET TABLE since the program was originally designed as BROWSER -> SERVER, and it would refresh the browser window. It can remain to have that function.

Case Docket

The screenshot displays the 'Case Docket' application interface. At the top, there are tabs for 'Case Status', 'Case Record', 'Court Docket' (selected), 'Court Orders', 'Court Staff', and 'Court Settings'. The 'User Login' field shows 'jreid@test.com'.

On the left, a 'Court Case Number' list includes cases like 22-1215, 22-1251, 22-1234, etc. Below this is a calendar for May 2013, with the 15th highlighted. Filter buttons for 'Filter By Courtroom' (set to 'All') and 'Filter By Session' (set to 'Both') are present.

The main area shows a table of cases for the selected date '5/15/13'. The table has columns: Case Number, Hearing Date, Courtroom, Department, Session, Party 1, Party 2, Children, Judge, Hearing Issue, and Other. The last row, 22-1251, is highlighted.

A 'Confirm Drop Case' dialog box is open, featuring a yellow warning icon. The text inside reads: 'DROP CASE - CONFIRMATION. You are about to DROP this case and remove it from active status and all future dockets.' Below the text is a text field containing '22-1251' and two buttons: 'DROP' and 'CANCEL'. Red arrows indicate the flow: one from the highlighted case in the table to the dialog, and two from the 'DROP' and 'DISMISS' buttons in the bottom toolbar to the 'DROP' button in the dialog.

DROP and DISMISS

- REMOVE the CASE from the DOCKET TABLE. This dialog needs to read the CASE NUMBER from the DOCKET TABLE. Change the status to DROP or DISMISS. These can be change in the CASE STATUS tab at this point. The DROP and DISMISS functions are same with exception of the STATUS designation and the NAME of DIALOG OPERATION.
- As mentioned on the first page, DROP or DISMISS CASES WILL not show in the LEFT LIST of CASES in the CASE DOCKET TAB.
