The dialog box itself shows the 'GENERATE COURT ORDERS' form with fields for Case Number, Master Order (DV110), Attachments (DV140 CC - CV, DV145 Travel Restrict, etc.), and Other Orders (DV730 - Renew Orders, etc.).

- Attachments:** Points to the list of attachments for the DV110 order.
- Master Court Orders:** Points to the 'Court Orders' list on the left.
- Housekeeping Operations:** Points to the 'REISSUE', 'CONTINUANCE', and 'RENEW' buttons.

Just an idea, the GENERATE FORM CLASS can read a table of XML file which outlines the FORM page counts, the FORM TABLE Rows. In this manner this class can populate all the form CALCULATION FIELDS, (ie., formDate, attachPages, and knows the Overrun Tables in relation to the form size), so it knows to ADD the Overrun PAGES MC-020, MC-025.

THIS DIALOG CAN GENERATE THE COMPLETE STACK. The housekeeping forms are next.
