

Case Status

In the CASE STATUS screen we need a dialog to change the case status. NEW would not be an option, NEW only happens when the case is first created.

The screenshot displays the 'Case Status' application interface. On the left, there is a sidebar with a 'Case Status List' (containing links like All, New, Reissued, Active, Dropped, Dismissed) and a 'Case Search' section with input fields for Case Number, Case Status, First Hearing Date, Last Hearing Date, Case Clerk, CCPOR Status, and CCPOR ID. The main area is titled 'Case Details' and contains a table of case records. A modal dialog titled 'Case Status Update' is open, showing a confirmation message: 'UPDATE STATUS - CONFIRMATION. To change the case status please confirm the case number and select the status change.' The dialog includes a dropdown menu for selecting a status (with 'Active' selected) and a 'CANCEL' button. A red arrow points from the 'Case Status' tab in the top navigation bar to the dialog. A black arrow points from the 'Case Status List' sidebar to the 'Case Details' table. A red arrow points from the 'Case Status' tab to the status dropdown in the dialog.
